

Virginia Emergency Operations Center (VEOC)

Virginia Department of Emergency Management (VDEM)

Virginia Emergency Response Team (VERT)

HURRICANES GUSTAV and IKE

SITUATION REPORT # 13

1500 Hours 8 October 2008

New information in bold italic font

SUMMARY

Recovery operations continue in Texas, Louisiana and along the Gulf Coast Region after Hurricane Gustav made landfall on 1 September near Houma, Louisiana and Hurricane Ike made landfall on 13 September near Galveston Texas. Virginia continues to support this effort by deployment of State and local resources through the Emergency Management Assistance Compact (EMAC).

EXECUTIVE ACTION

EOC Activation

Virginia Emergency Operations Center (VEOC) is at Routine Operations and continues to monitor and respond to EMAC requests from states impacted by Hurricanes Gustav and Ike.

Protective Actions

Governor Kaine activated the Emergency Management Assistance Compact (EMAC) on Friday, 29 August, directing State agencies and organizations to identify resources that they could deploy to help Gulf Coast states prepare and respond to impacts from Hurricane Gustav. Governor Timothy M. Kaine gave verbal authorization on 10 September to amend Executive Order 75 to include EMAC response for Hurricane Ike. In an effort to increase the supply of gasoline in the Commonwealth of Virginia following the disruption in the normal flow of petroleum products caused by Hurricanes Gustav and Ike, Governor Kaine waived certain specifications that prescribe volatility standards for gasoline.
